conduct since that time.

(b) In addition to assessing whether defendant Bruce suffers from a substance-abuse disorder or any other mental disorder(s), the study shall provide recommendations for treatment to be provided to him while on supervised release, including which treatment modalities, treatment settings, and supportive or other services are likely to be most effective in helping him to refrain from using illicit drugs and engaging in other illegal activity, particularly in light of his long history of criminal conduct, beginning at age 13.

(c) Finally, the study shall discuss any other matters the evaluator believes are pertinent to the sentencing factors set forth in 18 U.S.C. § 3553(a).

(3) On or before May 28, 2018, defense counsel is to provide to the mental-health evaluator ALL the details of defendant Bruce's criminal history, beginning at age 13.
